The following commercial specification is an original Parachute Industry Association specification.

WEBBING, TEXTILE, NYLON TUBE EDGE

The Parachute Industry Association makes this document available for the use by Industry and Government organizations that wish to apply this specification to their products.

1. SCOPE

1.1 Scope. This specification covers one type of nylon webbing used in the manufacture of critical use tubular edge webbing.

1.2 Classification. The nylon tube edge webbing shall be manufactured in a 3/4 inch width.

1.3 Salient characteristics. The webbing shall be manufactured from nylon 6,6 on a shuttleless narrow fabric loom.

2. APPLICABLE DOCUMENTS

2.1 General. The documents listed in this section are specified in Sections 3 and 4 of this specification. This section does not include documents cited in other sections of this specification nor is it recommended for additional information or as examples. While every effort has been made to ensure the completeness of this list, document users are cautioned that they must meet all specified requirements of the documents cited in Sections 3 and 4 of this specification, whether or not they are listed.

2.2 Government publications. The following Government publications form a part of this document.

FEDERAL ACQUISITION REGULATION (FAR)

52.209 - Contractor Qualifications Provisions and Clauses

FEDERAL STANDARD

FED-STD-595 - Colors Used in Government procurement
