

**PIA-STD-1480B**

16 August 2004

Superseding**PIA-STD-1480A**

04 September 1999

The following commercial specification is adopted from the military document. Revision A included all known accepted revisions, amendments, notices, and Department of Defense (DOD) engineering changes previously developed for this item. Revisions B and later include changes adopted by DOD and Industry to reflect technology and design evolution.

Note: Although many military quality and inspection specifications, drawings and standards have been discontinued or deleted, most have been replaced by industry and commercial documents. When the specification refers to a discontinued or deleted document, you should refer to the procurement document or your contracting officer for guidance.

COLOR CODES FOR WEBBING, TEXTILE; MANUFACTURES IDENTIFICATION

The Parachute Industry Association makes this document available for use by Industry and Government organizations that wish to apply this specification to their products.

1. SCOPE

1.1 Scope. This standard specifies a color code to provide a means for the positive identification of the manufacturers of certain types of nylon webbing. This code is intended to apply only to nylon webbing.

2. REFERENCED DOCUMENTS

2.1 Referenced standards. The following standards are non-government documents that can be purchased at the address given:

THE STANDARD COLOR REFERENCE OF AMERICA
TENTH EDITION

UNITED STATES ARMY COLOR CARD

(These standards can be purchased from The Color Association of the United States, 315 West 39th Street, Studio 507, NY, NY 10018, www.colorassociation.com)
