14 January 2013

The following commercial specification is originally adopted from the military documents. Revision A includes all known accepted revisions, amendments, notices and Department of Defense (DOD) engineering changes previously developed for this item. Revision B and forward include changes adopted to reflect technology and design evolution.

TAPE, TEXTILE: WEBBING TEXTILE, NYLON

The Parachute Industry Association makes this document available for use by Industry and Government organizations that wish to apply this specification to their products.

1. SCOPE

1.1 Scope. This specification covers five classes of nylon tapes used in the fabrication of canopies of ribbon parachutes.

1.2 Classification. The tapes shall be furnished in the various classes and types indicated in TABLE I, as specified (see 6.2).

2. APPLICABLE DOCUMENTS

2.1 General. The documents listed in this section are specified in Sections 3 and 4 of this specification. This section does not include documents cited in other sections of this specification or recommended for additional information or as examples. While every effort has been made to ensure the completeness of this list, document users are cautioned that they must meet all specified requirements of the documents cited in Sections 3 and 4 of this specification, whether or not they are listed.

2.2 Government publications.

2.2.1 Government publications. The following Government publication forms a part of this document.

FEDERAL TRADE COMMISSION (FTC)

16 CFR 303 - Rules and Regulations Under the Textile Fiber Products Identification Act

(Copies are available online at www.ftc.gov or from the Federal Trade Commission, 600 Pennsylvania Avenue, N.W. Washington, DC 20580-0001. Electronic copies may also be obtained from <http://www.access.gpo.gov/>.)
