

# **Directorate of Clothing and Textiles**

## **Environmental Program**

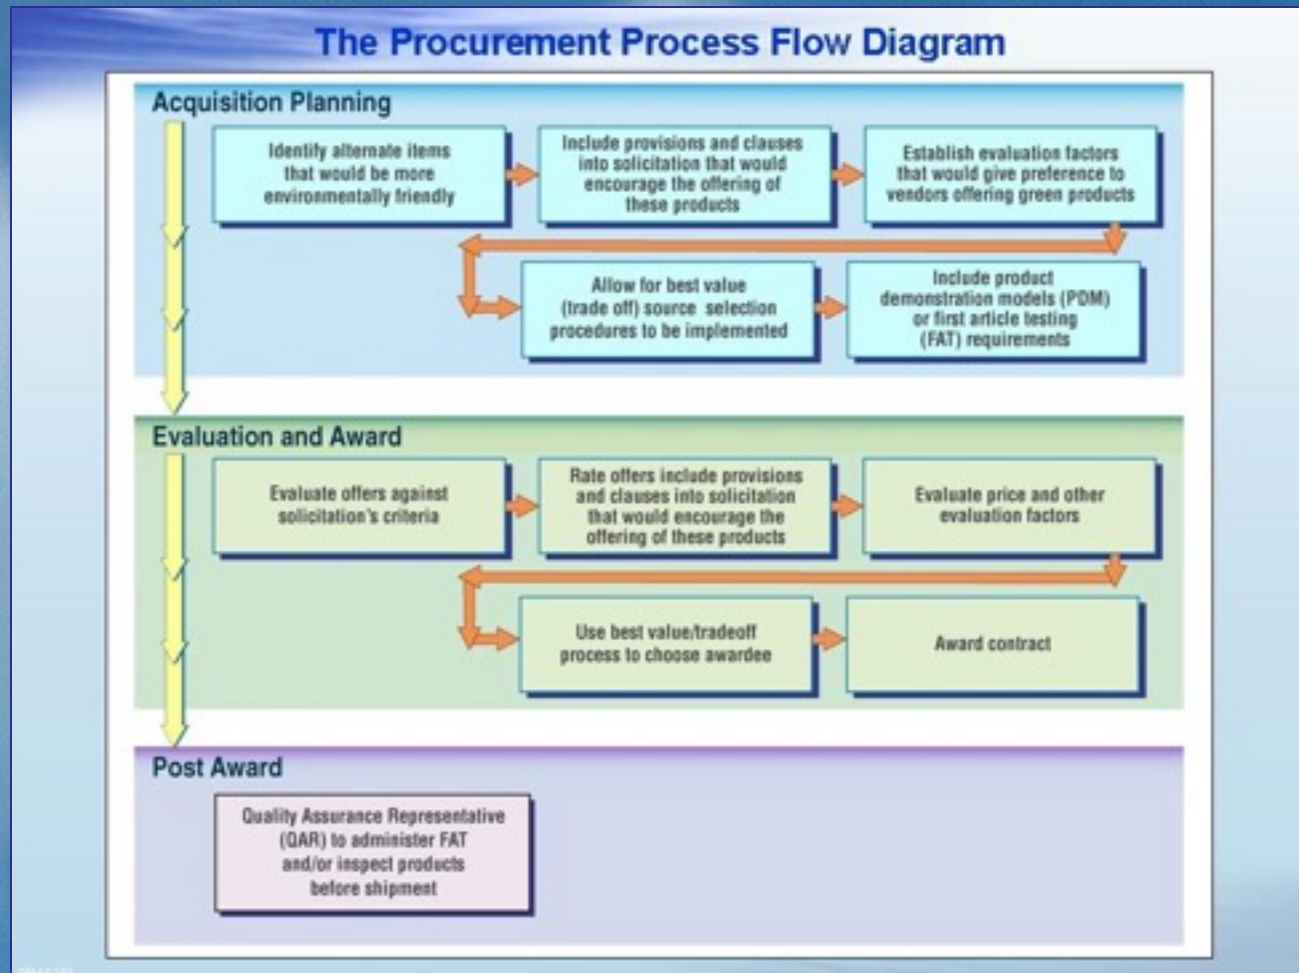

**August 2018**

# Program Scope

- Ensure green considerations are included in all of C&T's procurement processes

# Program Purpose

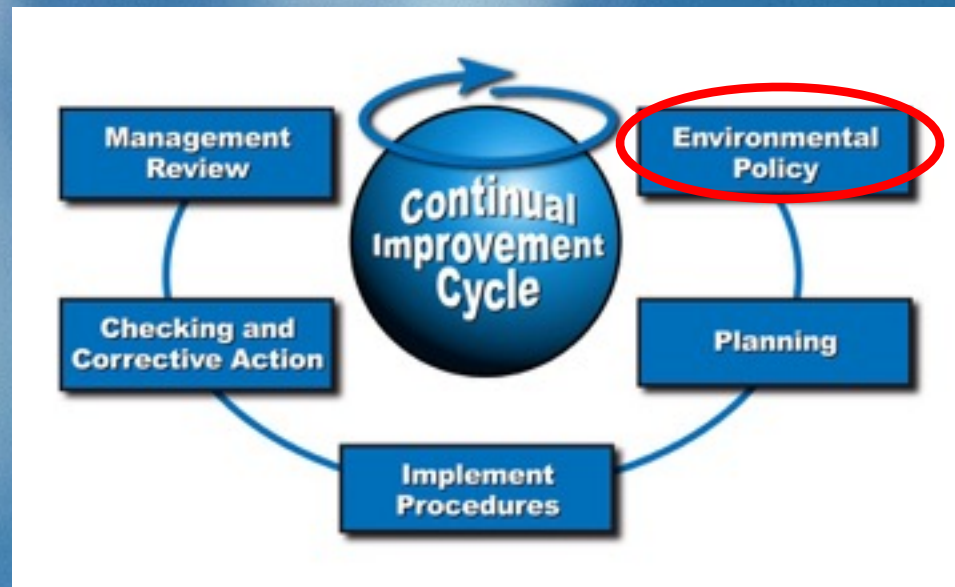

- Demonstrate commitment to DLA-TS's environmental policy
- Support C&T customers in meeting their environmental responsibilities
- Comply with environmental regulations and DLA's commitment to environmental stewardship
- Conform with ISO 14001 Standard

# Process

- Use the DLA-TS EMS framework to guide design and implementation of the C&T green procurement program

# Why Use the EMS?

- Structured approach
- Customizable
- Centralized
- Repeatable process
- Proven

# Meeting Customer's Needs

- Developing a C&T GPP will
  - Give C&T staff the training, tools, and processes needed to ensure customers meet requirements
  - Allow for a better understanding of customer needs, interests and requirements
  - Position C&T to handle the future green procurement needs of customers...

(Note: All federal customers are required by the Federal Acquisition Regulation (FAR) and Executive Order (EO) 13423 to assess and give preference to environmentally preferable products.)

# Next Steps

- Develop a level of stakeholders within our customer community
- Provide a level of support and understanding with C&T manufacturers and suppliers on the importance of sustainability in their current and future manufacturing processes
